

## **Criteria for FECAVA Membership**

Since the formation of FECAVA in 1990, the constitution has stated that only one association will represent a country.

### Questions and Comments

1. Are the member associations in FECAVA the only associations representing their country? Ex Italy, Spain, Belgium
2. Are the associations now in FECAVA representing more than one association? Ex Belgium
3. We are representing 30,000 members all over Europe. I guess there must be more small animal practitioners in Europe.
4. Are we missing members?
5. Can we have an open discussion on this topic? Could we have more than one association to represent a country and would it be possible to work with them even if some topics on the agenda could be controversial?
6. The finances of FECAVA could be improved as well.
