

Policy statement 4 - The training of Veterinary Nurses

FECAVA Policy Statement 4: The Training of Veterinary Nurses

(Adopted by FECAVA Council on 5th June 2004)

1. FECAVA recognises that national associations have different views on the relative merits of training and employing veterinary nurses
2. FECAVA feels strongly that Veterinary nurse training should be introduced into countries only with the full cooperation and active participation of the national small animal veterinary association
3. FECAVA will offer support and assist in providing resource material for those associations that request it
