CSAVA

28TH ANNUAL CONFERENCE

31.10.-1.11. & 7.-8.11.2020

Dear colleagues,

based on rapidly evolving domestic and worldwide pandemic related to COVID-19 we would like to announce that we have made the decision to pivot our Annual Conference from an in-person conference to a virtual conference.

While we know that some of you were looking forward to coming together in Brno, we feel that this decision is in the best interest and safety of our attendees, speakers and partners.

The CSAVA recognizes the importance of the Annual Conference to attendees' continuing education needs, especially as this conference may be one of your last opportunities to attend continuing education in 2020.

This will be the first conference of this kind in the Czech Republic!

Our virtual conference, scheduled for November 2020, will contain most of the same features that you would have found in person in Brno, and you will have the opportunity to see the scientific program, virtual exhibition of our sponsors, poster exhibition and attend a round table sessions with our speakers.

The conference website www.vkcavlmz.cz will be updated in many areas and over the course of the next several days you will see even more information so check back often.

We look forward to seeing you all in person again soon, but for now, we ask that you stay well and take care of yourselves and your families.

Sincerely,
Presidium of CSAVA Czech Republic
