

# VETS HELP VETS

## THE UKRAINE CHARITY WEBINAR SERIES

Dear colleagues around the globe,

The war in Ukraine affects us all! Many colleagues in the Ukraine have lost their livelihood but still continue to care for their patients in extremely precarious circumstances. Together with you we want to help!

Leading veterinary cardiologists from all over the world have volunteered for a webinar series to support Ukrainian colleagues in need.

We count on all of you to please register for one or all of our Ukraine Charity webinars. The registration fee of € 42.00 per webinar will be donated entirely to the Ukrainian Small Animal Veterinary Association (USAVA). Our veterinary colleagues in the Ukraine need our support!

Your registration counts - because it comes from the heart.
